MAKING SENSE OF THE FINANCIAL CRISIS IN THE ERA OF PEAK OIL

7pm, The Greenhouse, 17 St. Andrew St, Dublin 2, Tuesday 3rd August 2010

Peak Oil and the collapse of global Ponzi finance are a "perfect storm" of converging phenomena that threaten to sink our age of prosperity through wealth destruction, social discontent, and global conflict.

Foss, an Energy Consultant and Financial Blogger who blogs under the name "Stoneleigh" at the website The Automatic Earth (www.theautomaticearth.blogspot.com) plans to discuss the many converging factors that are contributing to the multi-faceted predicament we face today, and how individuals can build a "lifeboat" to cope with the difficult years ahead.
